Color B: 7/81 + 6%
Color C: 5/81 + 6/16 + 6%

Products: System Professional Color Save Shampoo, System Professional Color Save Emulsion, System Professional Delicate Volume, System Professional Perfect Hold

COLOR

01

Separate a thin slice over the middle parting. Take a weave section and apply color A, directly below a slice with color B.

02

Separate three triangular sections below the hair line on either side. Apply color A on 1st triangle, color B on 2nd and alternate color A+B on the 3rd triangle.

03

Apply color C to the remaining hair roots to ends.

CUT

01

Start at the back and create the end length.

02

Take a section at the crown. From there layer the hair around the head.

03

Take the hair to the front and create a round line.

STYLING

01

Use a medium round brush to blow dry the hair.

02

Blow dry the hair section by section, roll in and hold with a clip.

03

Finally style the hair and create additional volume at the parting.
