BABYLIGHTS

BEFORE
Natural Color: 5/0
HIGHLIGHTING
COLOR A: Magma /17 + 9% Welloxon Perfect
COLOR B: Magma /36 + 9% Welloxon Perfect

COLORING

1
Start by sectioning the frontal area. Divide fine 1-2mm slices and apply color A. Here the highlights are done only on area around the face.

2
Continue with color B.

3
Leave a triangle shaped section uncolored for a softer natural effect.

STYLE

1
Apply EIMI Root Shoot on roots for a precise root lift and blow-dry.

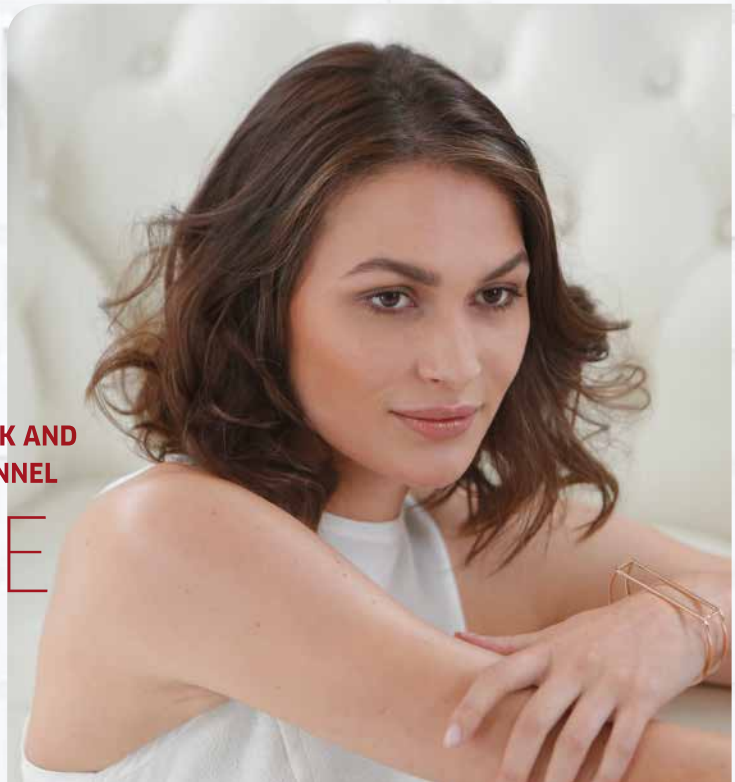

2
When the hair is dry, create texture and soft waves with Wella Style styling iron.

3
Open the hair with your fingers and finish with EIMI Shimmer Delight for an exquisite shimmer, to reduce frizz and protect from UV.
