Color B: Koleston Perfect Special Blonde 12/03 + Welloxon Perfect 9%
Color C: ILLUMINA COLOR 9/69 + COLOR TOUCH Emulsion
 or Welloxon Perfect Pastel 1.9%

BABYLIGHTS LOOK

To create the perfect BABYLIGHTS results, use fine back-to-back highlights with shades that are not more than 2 levels apart: this will recreate the stunning tonal nuances that appear when you see a child's hair in the sunlight.

COLOR

< STEP 2
 Starting in the rectangle at the temple, take horizontal sections using back-to-back fine weaves. Apply formula A, B and C alternately.

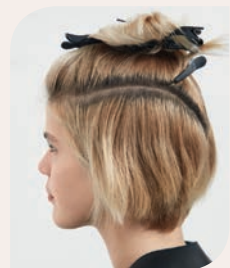

STEP 4 >
 Repeat alternating the formula A, B and C with alternate medium weaves and slices in the diamond at the back. Once development time is reached remove in the normal manner and blow-dry the hair.

< STEP 3
 Move to the diamond section on top, using back-to-back fine weaves and slices. Alternate formula A, B and C on a forward diagonal.

STEP 5
 To create a soft stretched root, apply formula C to the root area, blending past the root.

HOT TIP
 > Blondor Mèches is specially designed to develop in the same time as your tint.
 > Use Koleston Perfect Special Blonde to create different tonal blonde results.

STEP 1 >

Apply EIMI Perfect Me as a cutting lotion. Sectioning the hair as shown, divide at the ear: direct the hair in front of the ear forward, and point cut.

CUT

< STEP 2

Use a razor to create a soft result at the back.

STEP 3 >

Bring the top down in fine sections and blend to the sides and back.

< STEP 4

Decide on the length at the front. Twist the hair before slice cutting to avoid creating hard lines.

STYLE

< STEP 1

Apply EIMI Sugar Lift into the hair before blow-drying.

STEP 2 >

Use a round brush to create movement and volume.

< STEP 3

Apply EIMI Grip Cream to define and texturize.

AT-HOME CARE:

Oil Reflections care products provide smoother hair and instant luminosity

- > Luminous Reveal Shampoo
- > Luminous Reboost Mask
- > Luminous Smoothing Oil

STYLING:

- > EIMI Grip Cream
- > EIMI Sugar Lift
