Blondor, Koleston Perfect, Welloxon Perfect

Roots Foreground:
10g 6/91 + 10g 7/0 + 20g 6%
Roots Background + ends:
20g 5/18 + 20g 6/0 + 40g 6%
Highlights:
30g Blondor Plex + 45g 4%
Toner:
20g 7/36 + 40g 1.9%

1 HIGHLIGHTS

Start by weaving in your lights around the face, then scatter a few lights diagonally through the back section.

2 ROOTS

Apply the darker root color through the back and the lighter root color around the face frame.

3 TONE

40 min

Stretch out the darker root color in between your lights to cool down the base color. After full development rinse and remove then tone hair, develop up to 15min.

Top Tip

If your client has scalp sensitivity use the Marula Oil Blend Scalp Primer as it is purposefully designed to protect even in the most demanding color transformations.
