COLOR PLACEMENT:

1
Apply Formula A to the roots throughout the head.

2
Apply Formula A to mid-lenghts and ends in the center nape area. Apply Formula C in the fields behind the ears.

3
Working around the head with 1/4 cm back-to-back slices, alternate Formulas A,B, C through the mid-lengths and ends. Above the hat line, alternate Formulas B, C, D through the mid-lengths and ends
Tip: By using Color.id, you don't need foils to separate your color.

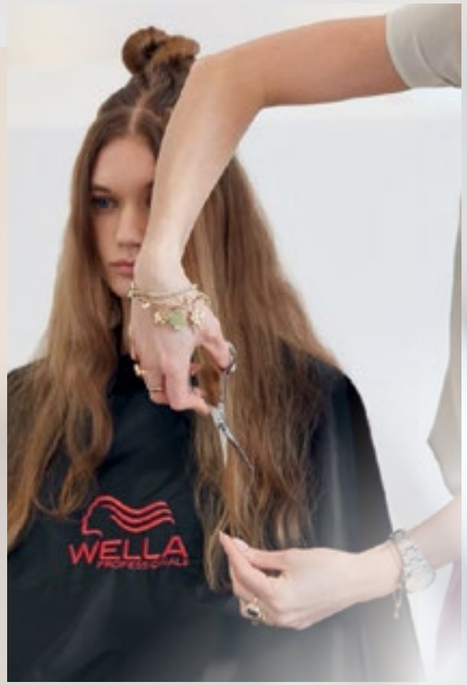

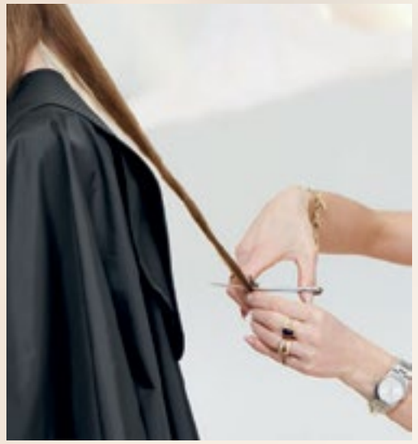

CUT

1
Take a waved section around the hat line. Form a soft guide line by slicing into the perimeter at the back and sides.

2
Tip: Twist the strand before slicing to create a softer result.

3
Use the base line as a guide at 90 degree to create soft layers though the back and sides.

STYLING

Use the pro curl color 24 mm to create soft waves.
