

POWDERED **RED**

Distilled red takes an iconic color to a new level.

COLOR

BEFORE COLOR FORMULAS

- A. Blondor Freelights + 6%
Blondor Freelights Developer 1:1,5
- B. Color Touch Relights /44 + /47 +/00
1:2:2 + Color Touch Emulsion 1,9%
- C. Color Touch Relights /56 + /44+/00
0,5:1:1 + Color Touch Emulsion 1,9%

COLOR PLACEMENT: **V** **◆**

1▶

Use formula A with a sweeping deep V application on fine sections throughout the head. Once sufficient lift has been achieved, remove the color in the normal manner and blow-dry the hair.

2▶

Create a diamond section on the top of the head. Start at the front sides. Apply formula C to roots. Alternate Formula B & Formula C in vertical slices through mid-lengths and ends.

3▶

Start with a backward diagonal at the nape. Apply Formula C to roots and alternate Formula B & C through the mid-lengths and ends.

4▶

Apply Formula B to the diamond section from roots to the ends. Leave to develop for five minutes.

CUT

◀1
Using a razor, cut the fringe to desired length.

◀3
Create soft graduation by taking horizontal sections and cutting at 90 degrees.

◀2
Take 1 cm at the ears and cut to desired length, repeat at nape. Using the razor, join these points to create the base line.

◀4
Bring top section down using the base line as a guide.

STYLING

Create a tissue band to keep the top smooth. Spray with Thermal Image to protect against the heat.
