Depending on shade
and intensity.

BORN TO MIX
COLORINVENT™ Technology
lets you custom create any
color because all shades can
be mixed together.

FADES BEAUTIFULLY
Once your masterpiece
is created, the color will
fade beautifully on tone.

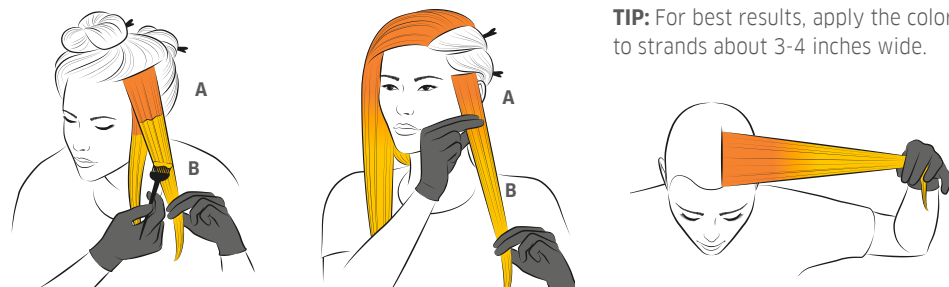

Tahitian Sunset Ombre

This style is a fun and easy way to **create your own ombre** with a tropical flair.

TIP: PAINTS show brightest on blonde or lightened hair.

PREPARE your colors in separate bowls before you get started, and use a different brush for each color.

TIP: For best results, apply the color
to strands about 3-4 inches wide.

Starting from the underneath, apply color **A MAI TAI** from your scalp, $\frac{1}{3}$ the way down your hair. Next, apply color **B SUNKISSED** to the remaining hair all the way through the ends.

Smudge both colors together where they meet, creating a smooth transition of color to achieve an ombre. Continue throughout your hair.
