CLIMAZON².
THE SALON SOLUTION FOR VERSATILE DRYING.

Whether coloring, highlighting, bleaching, perming, drying or providing care, you can adapt each treatment individually with CLIMAZON²'s combined infrared heating and hood-drying abilities.

SERVICE AND TECHNIQUES

CLIMAZON² gives optimized, individual, intelligent and comfortable treatment to your clients. Perfect for all professional services:
The main program offers six different top-level programs to choose from:

- Color: Software-controlled temperature distribution guarantees consistent and repeatable color results and reduces treatments time by up to 33%
- Highlights
- Bleaching
- Perming
- Drying and natural drying
- Care

PRODUCT FEATURES

- 2-in-1 appliance, combining infrared heating and hair drying performance
- Moveable side arms and side heating elements allow for gentle, even and quick-drying performance
- Unique, patented “Skin Heat Protection” concept for protection of the client’s ears, nape and face
- Gentle but effective temperature patterns and dedicated sound design increase the client’s comfort during treatment
- Intuitive multilingual user interface via graphic display with active background illumination

VISIONAIR.
BRING THE FUTURE TO YOUR SALON WITH THE NEXT-GENERATION HOOD DRYER.

The revolutionary VISIONAIR hood dryer provides supreme comfort while enabling you to create any modern style you can imagine. Distinctive with its innovative open-shape design, VISIONAIR takes hair drying and styling into a new era.

SERVICE AND TECHNIQUES

VISIONAIR stands for a new and unique hood dryer that's distinctive due to its exceptional design. Thanks to its surprising open shape, VISIONAIR offers you creative drying possibilities.

- Drying classic shampoo and set styles as well as modern hairstyles with natural waves and lots of movement
- Pre-drying
- Natural drying
- For applying heat to cosmetic hair treatments (with plastic cap)
- Create any style, even with long hair, by using roller diameters up to 70 mm

PRODUCT FEATURES

- Exceptional and innovative design features an open shape that avoids any spatial constraints for the client
- With only one control button, the user interface is designed to be as simple and intuitive as possible
- Equipped with long hair baffle to dry even very long hair
- Optimized heat distribution allows for homogeneous drying results
- Variable settings for time, temperature (10 steps) and airflow (2 speeds) for individual drying treatments

HAIRSPA.
TRUE SPA-LIKE SERVICE WITH HAIRSPA STEAMER.

Treatments with the warm steam of HAIRSPA prepare and support penetration of hair care ingredients. Tiny water droplets provide the hair with additional moisture.

SERVICE AND TECHNIQUES

HAIRSPA helps you to optimize control of steam and temperature with 3 expert programs for care, color, and lightening/bleaching treatments.

Program 1: Care
Intensifies penetration of care ingredients

Program 2: Color
For a color service with 15% more shine and 13% more color intensity

Program 3: Highlighting and bleaching
For highlighting/bleaching service with additional moisture

PRODUCT FEATURES

- Air Steam Injection Technology mixes warm steam with cool air for intensified penetration of ingredients and optimum hydration of hair
- Electronic temperature regulation guarantees a constant steam temperature
- The ergonomic design of the dome in conjunction with the steam control flap allows for optimum steaming conditions and maximum client comfort
- Simple to use with a minimum number of operating keys
- Removable water boiler unit with patented calcification stopper
- Easy to empty, fill or clean
- Variable settings for time and steam temperature (5 steps) for individual treatments

CURL STYLER.
2 IN 1: EASY TO STYLE AND DRY.

Easy to use, light and the perfect fit for your hand, the CURL STYLER provides simultaneous styling and control of drying in one single appliance.

SERVICE AND TECHNIQUES

CURL STYLER is designed to achieve styling and drying at the same time, suitable for slightly damp and dry hair styling:

- Thanks to the four different brush diameters, CURL STYLER enables you to create small, medium and large curls
- Roll up a strand from the end, using the round brush to make a curl
- Switch the appliance and allow hot air to act on the strand of the hair until it is dry
- Select the cooling setting to fix the curl in place
- Retract the bristles and slide the round brush out sideways or twist the brush as you pull it out of the hair

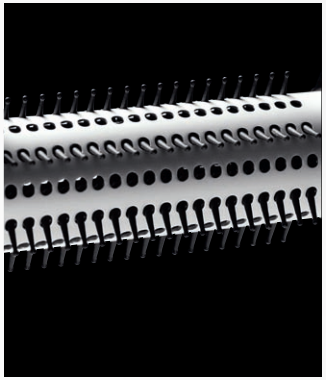

PRODUCT FEATURES

For simultaneous styling and control of drying in one single appliance:

- Extremely easy to use with ergonomic handle design
- Four round brushes of different sizes included for versatile styling (retractable bristles with one smaller and one medium-size round brush)
- Customizable temperature setting in 20 °C increments via digital display
- 2 heating levels and 1 cooling level
- Ideal product to recommend/sell to your clients

TECHNICAL INFORMATION

OPERATING VOLTAGE: 230 V – 50 Hz
LENGTH: approx. 39 cm
ø HEATING ELEMENT: 49 mm
WEIGHT: approx. 350 g
TEMPERATURE SETTINGS: 140 °C–200 °C in 20 °C increments
CORD LENGTH: 2.0 m
COLOR: black
2-YEAR GUARANTEE
